

CAMPUS

Client: Lawrence Berkeley National Laboratory

Location: Berkeley, CA

Description: Comprehensive Wayfinding Signage Program

With over one hundred buildings scattered around a steep, wooded hillside, the Lawrence Berkeley National Laboratory campus has always presented a challenge to visitors. Coordinated pedestrian and vehicular wayfinding has been implemented in key areas, along with a campus-wide building identification system.

Building identification plaques were designed for high visibility on this hilly, wooded, 200-acre campus.
